Want to upgrade from Halogen to LED
without purchasing an entire new light?

Upgrade to First Class with the SDS Viulux LED II Retrofit Kit

SDS is now providing doctors with the option of keeping their existing operatory units and light posts and simply swapping out the halogen light head for our Viulux LED II light head.*
Our light can provide doctors the technology of tomorrow at a price they can afford today.

We proudly offer our products through our trusted authorized dealers

*SDS's warranty covers only the Viulux LED II retrofit kit head assembly and not the existing operatory, light post, light flex arm, or any other manufacturers' products. Technicians should verify the functionality and capability of the existing flex arm before purchasing and installing the retrofit kit. Viulux LED II head is SDS light gray or white. **The parts and products mentioned in this flyer are manufactured by Summit Dental Systems (SDS) to fit another manufacturer's equipment. All product names used in this document are trademarks or registered trademarks of their respective holders.
